PLASTIC

created and performed by
 PAVLA MANO and CSABA RADULY
 music by PETYA NEDEVA

What more surprising than a plastic bags world where funny and colorful creatures are born and transform themselves as much as they like!

They fill themselves, they empty themselves, they fly, they eat each other, they are bored... They exist. Step by step they reveal their nature.

They are primitive, naive and funny and they resemble us a little bit... maybe...

Remaining faithful to it's artistic approach Puzzle Theatre offers you once again a multicolored performance with unusual puppets, humor and unexpected situations.
